18:50 -19:00

Cyprus Federation of Patients' Associations

Speaker TBA

#### **Reception**

**Master of Ceremony: Natasa Lachana OEB Officer**

# SPEAKERS

**Professor John Deanfield**

Professor John Deanfield, Professor of Cardiology at University College London, is a global leader in cardiovascular health and preventative medicine. His work has been pivotal in shifting the focus from treating established disease to preventing its onset. He has championed the concept of “Investing in your Arteries” based on his work describing the risk and benefit from cumulative exposure to risk factors and their treatment. As the UK government's first-ever Champion for Personalised Prevention, he has played a role in shaping national health strategies, advocating for a more proactive and individualized approach to healthcare. His work in this capacity has influenced policy decisions and helped set the stage for a new era of preventive medicine in the UK.

**Sara Siegel**

Sara is Deloitte's Global healthcare sector Leader. She oversees all of Deloitte's healthcare practices in all countries of operation. Sara is based in the UK and maintains the NHS as a client in addition to her global portfolio. Sara's passion for health began when she moved to the UK in 2003 and was first exposed to the NHS.

Sara believes passionately in the mission of the NHS and sees the incredible value that a health service free at the point of need provides to society. With her teams, she supports the NHS to do more and better with the resources at its disposal. Some of Sara's work includes supporting the government on its Coronavirus testing programme, and the introduction of robotic and cognitive automation to improve the speed and quality of NHS services and to release more time for direct patient care. It is the introduction and uptake of new innovative practices either pioneered by individuals or tested first in other health systems around the world that Sara most enjoys working with her NHS clients on.

In her global role, Sara works to create connectivity between the health systems of the world all seeking to solve similar challenges. The practice supports healthcare clients with digital implementations, cyber security, data analytics, care pathway redesign, workforce improvements, virtual care and increasingly AI and Generative AI solutions to the wicked issues affecting healthcare. Sara is a trustee of the Peter Sowerby Foundation which supports healthcare causes, and she is a trustee of Helpforce which supports volunteering in the NHS.

**Dr Petros Agathangelou**

Dr Petros Agathangelou is a Consultant Cardiologist and Consultant

Physician. He studied Medicine at the University of Chicago in the US, he gained Bachelor's degree in Human Physiology and subsequently he specialized in Cardiology and internal medicine. At present, he is the President of the Cyprus Medical Association. Moreover, he is an active member of various Scientific Committees in Cyprus and abroad. He is a Clinical Professor of Medicine and Cardiology. He has participated in several scientific studies that have been published in the local and international medical press, as well as in several medical conferences in Cyprus and abroad. In addition, he is the president of the Supreme Health Council for Athletes at the Cyprus Sports Authority, the lead Consultant and advisor for the program regarding the prevention of sudden cardiac death in young athletes and Vice President of the UEFA Medical Committee.

Andros Antoniadis is Chief Executive Officer at Aretaeio Hospital, a member of the Hellenic Healthcare Group (HHG) where he has been since its founding. He brings more than 30 years of senior leadership experience across the healthcare, retail, wholesale, and financial sectors. He successfully delivered the hospital's full CHKS accreditation, led successful organizational transformation initiatives and executed comprehensive operational restructuring accompanied by strong financial results, thus reinforcing hospital's proven recognition in Cyprus. He played a critical role in the hospital's acquisition and introduction of the hospital in General Healthcare System (GHS) of Cyprus. Previously, Mr. Antoniadis held Chief Financial Officer positions across multiple industries, including Aretaeio Hospital.

His areas of expertise include executive leadership & decision-making, operational excellence, financial management, organizational design and strategy implementation. He holds a BSc in Economics and MSc in Telecommunications from University of Minnesota, Twin Cities, USA, he is a Fellow Chartered Accountant (ICAEW), Certified Public Accountant (AICPA), Chartered Management Accountant (CIMA), Chartered Business Consultant (CABA) and a Business and Finance Professional (ICAEW).

#### Marios Nicolaou

Marios Nicolaou is Head of Strategy and Business Development at Universal Life Insurance in Cyprus and a member of the Senior Management Team. His work focuses on strategy, growth, and transformation across life and health insurance. Previously, he led insurance-related strategy and consulting engagements, including work for Bupa on market entry and growth initiatives. He has also held senior strategy roles in UK-listed corporates and worked in strategy consulting and private equity advisory. Marios holds an MBA from London Business School and a PhD in Electrical & Electronic Engineering

#### Dr. Marios Karaiskakis

Dr. Marios Karaiskakis is a General Surgeon and Clinical Assistant Professor of Surgery at the Medical School of the University of Nicosia, where he also serves as Course Director for General Surgery. He is the Director of the Surgical Department and General Surgery at the German Medical Institute. He graduated from the Pancyprian Gymnasium, studied Medicine at Aristotle University of Thessaloniki, obtained his specialist title in General Surgery from the University of Athens, and completed a Research Fellowship in Trauma and the Surgical Intensive Care Unit at the University of Southern California, Los Angeles. His main clinical and research interests include surgical oncology, trauma, and intensive care medicine, with numerous international publications in reputable medical journals. He has served as Vice President of the Cyprus Medical Association, President of the Limassol Medical Association, Cyprus representative to the Standing Committee of European Doctors (CPME), and Vice President of the National eHealth Authority. He is currently President of the Cyprus Association of Private Hospitals (PASIN).

#### Dr. Constantinos Phellas

Dr. Constantinos Phellas is the Senior Vice Rector at the University of Nicosia. Prof. Phellas serves as an external evaluator for various European Funding Agencies and also holds various official European and Governmental appointments; among others, he is: 1) the Chair of the Cyprus National Bioethics Committee, 2) the Chair of the Human Resource Development Authority of Cyprus, 3) the Chair of the Cyprus National Committee on the Well-Being of Senior Citizens and 4) a member of the Council of Europe's Steering Committee for Human Rights in the Fields of Biomedicine and Health (CDBIO)

#### Moderator: Prof. Philippos Patsalis

Prof. Philippos Patsalis is a distinguished scientist with over 30 years of experience as an academic, researcher and executive. He is Professor of Human Genetics in the University of Nicosia Medical School and Member of the School Council, and served in top academic and leadership positions, among them as Chief Executive and Medical Director at the Cyprus Institute of Neurology and Genetics, Professor and Provost of the Cyprus School of Molecular Medicine, elected Board member of the European Society of Human Genetics, President of the National Board of Research & Innovation, and Minister of Health of the Republic of Cyprus. Prof. Patsalis holds over 200 international patents, authored 11 books, published over 140 scientific papers, and delivered more than 240 presentations at international conferences as Invited and Keynote Speaker.

## PLATINUM SPONSOR

Hellenic Healthcare Group (HHG) is the largest private healthcare services group in Greece and Cyprus.

It was founded in 2018 with the aim of playing a leading role in the continuous development of medical and nursing care, a market that presents significant opportunities and prospects in Greece and Cyprus.

It is committed to implementing an ambitious vision for the modernization of healthcare services in line with the highest standards and to positioning Greece and Cyprus as internationally leading countries in medical and nursing care.

The Group owns and develops model nursing units and Centres of Excellence that offer high-quality and internationally competitive healthcare services, invest in medical scientific research, and aspire to attract specialized scientific personnel from Greece, Cyprus, and abroad, while simultaneously reversing the “brain drain” in the healthcare sector.

With a strong sense of responsibility, HHG aims to create value for the patient, the physician, the nurse, the healthcare professional, and above all for healthcare in Greece, Cyprus, and internationally through strategic business and scientific collaborations.

The Group’s mission is to provide the best medical and nursing care to every patient and for every health condition through timely prevention, accurate diagnosis, and personalized treatment.

HHG operates 9 leading hospitals in Greece, 4 private hospitals in Cyprus, advanced diagnostic centres, as well as other primary healthcare services.
